

Hamilton House

Monthly Newsletter | External Wall Systems
January 2022

Hello,

We hope this finds you well in the New Year! Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

Building Safety Fund Application

Our appeals remain outstanding with the Building Safety Fund. There are several areas of rejected systems and no response or update has been received to date from the Fund. We continue to push them for a response, and as soon as we have something to share, we will of course do so.

Project Update

The project team continues to work very closely with seven prospective tenderers to define the scope of works and tender price. Unfortunately, this has been extremely difficult due to the complex set up and nature of the works at Hamilton House, which is causing this stage of the project to take longer than we would have anticipated.

When will you update me next?

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

We have any big news to share before then, we will do so via bulletin. As always, if you have any questions, please contact the team at BuildingSafety@liv-group.co.uk

Thank you,

LIV Group
