

Jet Centro, Sheffield

Monthly Newsletter | External Wall Systems
January 2022

Hello,

We hope this finds you well in the New Year! Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

Building Safety Fund Application

We have received the report from the survey that was undertaken in November 2021, and we have passed this onto the Building Safety Fund for review to assist in our submission. However, we are continuing to await an update from the Building Safety Fund following the technical eligibility submission of our application to the fund.

As we have previously said, it is unfortunately quite common for the process to take this extended period. We will be in touch just as soon as we have any correspondence from the fund to share.

Project Update

Having now received the survey report for Jet Centro, the Project Team are carefully and diligently assessing the contents. The survey will improve our understanding of the building façade and remediation works that are required, and this will assist team in the work that they are doing.

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

You'll hear from us again next month, and if we have any big news to share before then, we will reach out. As always our team are on-hand to answer any questions at BuildingSafety@liv-group.co.uk

Thank you,

LIV Group
