

Wards Brewery

Monthly Newsletter | External Wall Systems
January 2022

Hello,

We hope this finds you well in the New Year! Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

Building Safety Fund Application

As we have shared previously, the Wards One project has had successful Building Safety Fund applications. Funding for stage 2 of the works has also been approved.

Project Update

There is currently a slight delay to the works as the project team has been met with a few challenges around the access to install the relevant cavity barriers. The Project Team are currently finalising proposals for an alternative methodology that should meet the requirements of the Fire & Façade Engineers. Once this has been approved, the works will be able to resume.

This delay should not significantly impact the project timeline, but we will of course let you know of any changes.

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

You'll hear from us again next month, and if we have any big news to share before then, we will reach out. As always our team are on-hand to answer any questions at BuildingSafety@liv-group.co.uk.

Thank you,

LIV Group
