Monthly Newsletter | External Wall Systems

July 2022

Hello,

We hope this finds you and yours safe, well, and enjoying the summer holiday! Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

Building Safety Fund Application

When we first started sending you monthly newsletters, we let you know that we'd reach out to you every month whether we have any news to share or not. Unfortunately, we this is one of those months in which we don't have much to share. The Freeholder is continuing in their discussions with Homes England around the Grant Funding Agreement (GFA).

These discussions are not uncommon and can allow for the signing of any GFA to be swifter, when it is set to take place, so we remain hopeful.

Project Update

The project team are requesting access to certain areas of balconies but have not

been successful in obtaining permission from Leaseholders / tenants to view these. As we mentioned previously, this survey is to assess in detail how these are interconnected to the building. This is to allow diligent planning on how the remediation works to the building may be undertaken.

Should you be contacted to allow access, the whole project team would be grateful if you could accommodate this. Of course, if you have any questions around the access you have, please let us know.

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

You'll hear from us again next month, but if we have any big news to share before then, we will reach out. As always, our team are on-hand to answer any questions at BuildingSafety@liv-group.co.uk

Thank you,

Ryan Tones

Building Safety Officer
