## Monthly Newsletter | External Wall Systems

December 2022

Hello,

We hope this finds you and yours safe and well this holiday season! Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

### *Building Safety Fund Application*

Following on from our last update, I can confirm that we have submitted all the required documentation to the Building Safety Fund. This is currently being reviewed by their independent cost consultant.

However, due to the Christmas period, we will likely not hear from them in relation to this until the new year.

We will put forward the updated costs to the Funding Approval Board in early January. Once this has been completed and any enquires settled, we can then look to complete and sign the appropriate documents and work with the contractor to get to site.

## Project Update

Despite the slight delay to the updated project costs not being reviewed until early January 2023, we are still working towards being onsite within Q1 of 2023.

Once we have completed the funding application process, we will be able to share a schedule for the works and further information on this with all leaseholders.

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

You'll hear from us again next month, and if we have any big news to share before then, we will reach out. As always, our team are on-hand to answer any questions at [BuildingSafety@liv-group.co.uk](mailto:BuildingSafety@liv-group.co.uk)

Thank you and wishing you and your family a Merry Christmas and Happy new Year,

Ryan Tones

Building Safety Officer
