Monthly Newsletter | External Wall Systems

March 2023

Hello,

We hope this finds you and yours safe and well. Thank you for taking the time to read our latest newsletter – please read on to find out the latest updates on the External Wall Systems project.

Building Safety Fund Application

I'm pleased to share that we have received a response from the Building Safety Fund in relation to our submission. We have passed the Building Safety Fund's initial technical eligibility check and can progress with our application.

We are now in the process of completing our Stage 1 submission to Homes England as part of the application process for the funding we will be requesting. Along with this, we will also be looking to form a project team to take the project forward and begin to scope out the works, tender the project, and address all other associated tasks.

Thank you for taking the time to review our latest newsletter. As always, you can find copies of this and all previous newsletters [here](#).

You'll hear from us again next month, though we're making some changes to the style and content of our newsletters in order to provide you with updates relating to the building beyond the External Wall Project.

If we have any big news to share before then, we will reach out. As always, our team are on-hand to answer any questions at BuildingSafety@liv-group.co.uk

Thank you,
Ryan Tones
Building Safety Officer
